

AUTOMATED BREAKOUT BOX (PRELIMINARY)

OFG

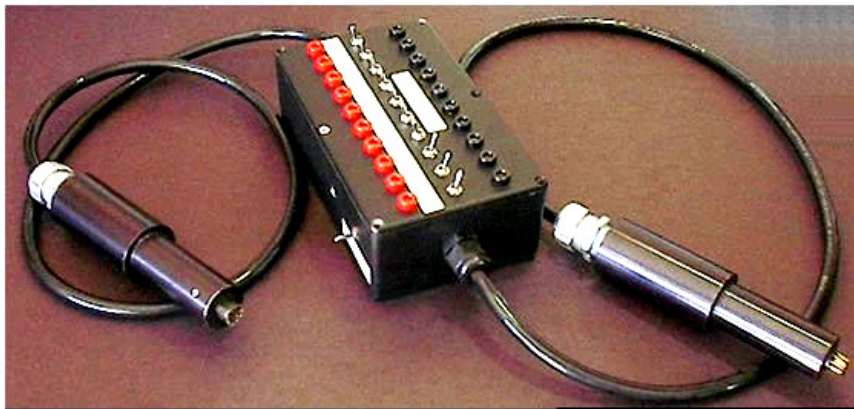

OilField Guidance Inc.

PRODUCT SPECIFICATIONS:

The OFG Automated Breakout Box is designed for Lab and Field use. It is designed to attach to your existing Breakout Box with the addition of a Female DB 25 connector or use a prebuilt cable. This device automates the testing of MWD functionality in passive operation. The Automated Breakout Box can be used as a stand-alone device or connected to a computer to give printable test results.

FEATURES:

- Connects to existing Breakout boxes
- Saves time by automating the testing process
- Connects to a Computer to provide printed results and extended features
